Gilbert Vasquez

"Good evening board members and residents who came out to hear about this board meeting. I would just like to bring up something to your guy's attention that was happening with a 360-degree investigation. We have not heard nothing back on it yet and I keep continuing to get harassed from Interim Fire Chief Ryan McEachen. I sent you guys a letter stating what has happened, what has taken place and you guys have failed to do anything about it. He keeps continuing to harass me and as our commanding officer, we should not have to feel, in our place of business, to where we're getting harassed. He keeps continuing to harass us on a day in day out basis. Just today he harassed me again and I did talk to our interim general manager, and I said I would like the board to put me off on paid administrative leave until this investigation is over. And he said well give it in writing and bring it to the board. I've had several meetings with Mr. Campos, and no one is doing nothing about the harassment. And now

the interim fire chief is living behind our station in an RV, spending our utilities when we can't even – we have a lockbox on our AC box. But he's running his RV 12-13 hours in the daytime not being in there, wasting our electricity. So, I come to you guys today to please ask you to please remove him from the situation of harassing our employees. We have a stressful job enough to be able to protect your guy's residents and your family and I feel like I have to look over back of when I'm going to mess up because the chief is harassing us. Thank you"

Kyle Miller

"Good evening board members, residents – um I was going to kind of piggyback off what he was saying I didn't know who lived in that RV in the back. I was wondering why the RV was in the back and why our half a million-dollar fire engine is currently parked unshaded exposed to the elements. We went through a lot of hoops, I know the fire department went through a lot of hoops to get that fire engine wasn't easy. Um and now those tax dollars are essentially sitting out in the sun and that is a concern to me. And that's something I would like to see addressed."

Sean Miller

"How you doing, my name is Sean Miller. I am a resident here in Morongo Valley I am also a firefighter/paramedic with the department as well as a EMS coordinator. I would just like to come here and express a growing concern that I and many of the firefighters and paramedics and engineers all have concerns with our current interim fire chief. Following recent events and discussions it has become clear that confidence in the interim fire chief's ability to lead has been significantly **\*Inaudible word here.** At a recent department meeting it was made evident to me that the safety and well-being of our firefighters is not being prioritized appropriately. While the chief has verbally stated the firefighter's safety is important, his actions show otherwise. Leadership in any department must come from the top down and at this time I do not believe the interim fire chief is effectively able to guide this department in a way that fosters safety, moral and operational excellence that you guys expect from us. For the future of this department and the safety of both our personnel and the community we serve I respectfully request that the board begin actively searching for a qualified full-time fire chief and remove the interim fire chief from his position. One who can lead with integrity, compassion and clear focus on firefighters and public safety. Thanks for hearing me."

Michael Sanchez

"Good evening board members, citizens my name is Michael Sanchez firefighter/paramedic here. Um just addressing the same concerns. There's been a lot of like, Engineer Vasquez said kind of harassing kind of things that have just made us feel uncomfortable in our station, in our home if you will, our second home. Um for example, as small as it sounds, we had a TV on and was forced to turn it off because we were told it wasn't supposed to be on for business hours. Nowhere in the guidelines or SOP's or rules or anything does that state that that's supposed to be and instead of giving us um how do I say it – a more respectful response it came off really rude. Other things like for example, me as a paramedic arriving on scene to a medical aids and we have a fire chief that shows up on a medical aid and then at times not show up on a fire related call. Which is generally the opposite. Um that's pretty much all I have. Can we just address the situation please."

Donna Yerman

"Um I've been meeting with Chief Ryan and he's been doing all sorts of extra work and meeting with the community so I'm kind of surprised to hear what I'm hearing tonight. He's gone way out of his way for a project I'm working on and I've watched him really go out of his way for a lot so I'm not sure what the other side of this is, but I know that he's working a lot and tirelessly to help the community and other people besides myself. So, I just wanted to share that, thank you."

Linda Christiansen

"I just wanted to piggyback off what Donna was saying, with Chief Ryan is um he's reached out a lot to the community looking for solutions of major problems we have in this town. So, on a greater scale I see so much more involvement trying to make things work better here. And I admire that because we've had a lot of chiefs that have kind of ignored the town and not paid attention to stuff. I just wanted to throw in that, I've met with him many times on different issues in the community and getting support there."

Brian Duke

“Good evening, everyone, my name is Brian Duke, I am the president of the Morongo Valley Firefighter’s Auxiliary. Aside from what’s happening here tonight we are doing a huge fundraiser on Saturday at 8AM in Hawk’s landing if anyone wants to come. The golf teams are all filled up but we do have opportunities for fun events and we would love to have you there and take your money.”
